The Summer French and Music for Teenagers program includes 15 hours of language classes and 15 hours of music training and practice per week. Develop your reading, writing, speaking, and comprehension skills in the morning and in the afternoon, receive professional music training and take advantage of the soundproof rooms to practice.

The program is designed for students who already have a background in music. You will fill out a questionnaire before you arrive so that the conservatory can identify your instrument of choice and place you with a suitable instructor. Part of the time will be spent training with an instructor in private or group lessons, and part of the time will be spent practicing. If enough students are enrolled in the program, the conservatory will organize group practices that will lead to one or more performances over the summer.
